Dear Prime Minister

To protect the Torres Strait Islands and the human rights of First Nations Peoples, I call on your government to take adequate and human rights-consistent climate action by rapidly reducing carbon emissions in line with the world commitment of limiting global warming to 1.5°C and in line with the best available scientific research.

Your government currently states that by 2030 it will reduce emissions by 43% by 2030. This is not enough to save the Torres Strait Islands. Leading climate scientists on the Climate Targets Panel calculate Australia's greenhouse emissions need to be reduced by 74% by 2030.

Yours sincerely
